CAREER OBJECTIVE

Seeking a challenging position in software industry where I can apply my programming expertise, problem-solving abilities and passion for technology to develop robust and scalable software solutions that drive positive impact.

SKILLS

- Technical Skills:JavaScript,Java,HTML,CSS,Node js.
- Frameworks:React js
- Databases:MySQL

PROJECTS

Recognizing and logging vehicles by scanning license plate

- Vehicle recognition and license plate scanning system, demonstrating advanced skills in computer vision and image processing.
- Integrated the system with a robust logging mechanism to store and manage vehicle related data efficiently.
- Tool: PyCharm.
- Technology used Python and MySQL Database.

Employee Management Tool

- Developed a role based Authentication using JWT.
- Designed a Distinct User Interfaces for admin and employee roles. Admin can update the details of the Employee.
- Integrated API Calls to store and get the data.
- Tool: Visual Studio Code.
- Technology used React js, Node js and MongoDB Database.

Resume Builder

- Collects the user inputs,Validates the input and dynamically manages multiple entries of user and navigates to the submission.
- Then displays into Structured format including photo.
- Tool: Visual Studio Code.
- Technology used React js.

CERTIFICATIONS

- Java Foundations and Fundamentals from Oracle.
- HTML From Coursera,
- SQL From Hackerrank.

EDUCATION

Bachelor Of Technology

Computer Science Engineering – Bonam Venkata Chalamayya institute of technology and science. 2019-2023

CGPA - 7.56/10

Intermediate

MPC – Aditya Junior College 2017-2019

CGPA - 9.59/10

10th

Sri Nand Techno School 2017

CGPA – 9.2/10
